Program for Interactive Session

Technology and knowledge acquired in the development of defense goods, services, and processes were critical elements in the development of commercial technologies, and civilian innovations have contributed greatly to new defense technologies (Ruttan 2001). This entry covers the topic of innovation in the context of defense technologies.

Innovation in Defense Technologies | SpringerLink

From 2010-2012, he served in the Pentagon as Senior Advisor to the Deputy Assistant Secretary of Defense for Manufacturing and Industrial Base Policy. He is the coauthor of two books: Buying Military Transformation: Technological Innovation and the Defense Industry, and U.S. Defense Politics: The Origins of Security Policy.

Eugene Gholz | Department of Political Science ...

"Buying a few commercially available bits of kit to special forces soldiers is not ambitious enough, but it is a start," he said. Since 2016, the defense ministry has invested more than 65 million pounds in over 600 initiatives to tap into innovation. Like the Pentagon, it is trying to attract nontraditional suppliers, he noted.

An Era of Intervention: Is Our Grand Strategy Making Us ...

Boot and Kagan both think the way forward lies in incremental decision-making based on the close study of real military challenges, careful technological innovation, and open-minded experimentation. That may not sound like "transformation" as Rumsfeld defined it.

The Real Meaning of Military Transformation: Rethinking ...

The Military Health System (MHS) is focused on continually finding innovative ways to protect, support, and advance the health and welfare of the Defense community. We remain on the cutting edge of medical practices and procedures, thus providing the best possible care for service members and beneficiaries.

Innovation | Health.mil - Military Health System

ous modernization and the operational innovation that comes from actually fielding new capabilities. The enthusiasts for "transformation" of the past generation have been look-ing through the wrong end of the telescope; their model of innovation was that, starved of funds, the US armed services would have to think of new ways to fight.
