I have a grasshopper with the kubota 725 engine. It only runs with the choke out 1/3 to 1/2 and will not idle at all. Just went to start it and it will not start, I do not hear the fuel pump run. Should I replace it? I did put in a new fuel filter and new plugs. Thanks for any help, billZ

kubota 725 | Lawn Mower Forum

Depending on overall condition, it is worth about \$3500.00, if you get the engine fixed. I am very surprised that it has engine problems. Those Kubota gas engines are pretty bullet-proof and often run 4000 hrs. with no problems.
